

**For Immediate Release:**

## **Comfort Systems USA Southwest Drives Growth with Trend**

**Redmond, WA (November 1, 2011)** — Trend Control Systems ([www.trend-americas.com](http://www.trend-americas.com)) announced today their newest partnership with Comfort Systems USA Southwest its latest Trend Technology Center. This partnership will allow Comfort Systems USA Southwest to offer reliable and cost-effective building automation controls to their customers, and give Trend a strong presence in Arizona, Nevada, and California.

For nearly 50 years, Comfort Systems USA Southwest has been serving its customers with their Heating, Ventilation and Air Conditioning (HVAC) needs. They offer a single-source for design, building and maintenance of systems within a building. From engineering, to installation, to maintenance, Comfort Systems USA, Southwest is dedicated to providing their customers with the highest industry standards for their unique buildings. Combining 50 years of experience in HVAC with Trend Control Systems proven building automation controls, Comfort Systems USA Southwest can now offer even more energy savings solutions and control to their customers.

“This is a great opportunity for Comfort Systems USA Southwest to leverage our strengths by adding a commercial controls division that aligns very closely with our vision of being a single source for our customers,” said Joe Berg, Vice President Building Services. “This change will not affect the Construction Division of Comfort Systems USA Southwest who will continue to operate as usual by partnering with external controls contractors outside of the Trend family. We look forward to working closely with Trend.”

“Comfort Systems USA Southwest will be a valuable partner to Trend throughout the west coast,” stated Sophia Bellos, Regional Sales Manager for Trend Control Systems. “They have a strong business model and are excited about offering more services to their Building Services customers with Trend’s building automation and control systems.”
