

For Immediate Release:

Trend Control Systems Welcomes Newest Trend Technology Center: Florida Air Conditioning Distributors

Redmond, WA (May 3, 2011)—Trend Control Systems (www.trend-americas.com) today welcomed Florida Air Conditioning Distributors as its latest Trend Technology Center. Combining Florida Air Conditioning Distributors' expertise in equipment solutions with Trend's strength in building controls allows Florida Air Conditioning Distributors to provide their customers with a complete solution for their buildings' needs. With over ten locations in Central and Southern Florida, Florida Air Conditioning Distributors has made a commitment to having a strong control business with Trend Control Systems.

"Florida Air Conditioning Distributors is quickly becoming the premier equipment representative company in Florida," said Jim Hungate, Regional Sales Manager for Trend. "Their ability to design, provide and support the entire HVAC equipment and controls needs for their clients in Central and Southern Florida makes this an ideal partnership."

"Florida Air Conditioning Distributors has partnered with Trend to provide our valued customers with a complete solution for their building HVAC and controls needs," said Bayardo Abaunza, General Sales Manager for Florida Air Conditioning Distributors. "Trend offers a building automation solution that enhances Florida Air Conditioning Distributors' ability to provide the most efficient and environmentally friendly equipment solutions with a premier energy management system."

Contact Florida Air Conditioning Distributors today at 407.850.0147 or visit their website at www.fldist.com.

About Florida Air Conditioning Distributors

Florida Air Conditioning Distributors www.fldist.com is a dynamic, privately owned corporation with ten locations throughout Florida. Florida Air Conditioning Distributors represents a full line of HVAC

equipment and controls to service the air conditioning community. As an engineering and technical sales-oriented firm in the air conditioning industry, Florida Air Conditioning Distributors assists consulting engineers, mechanical contractors and building owners in the design, selection and application of air conditioning systems and building automation controls. Through the representation of a complete line of HVAC related products, maintaining a technically knowledgeable sales force, providing superior service and maintaining a distribution network for equipment, parts and supplies, Florida Air Conditioning Distributors is set to become the premier HVAC representative and supplier in Florida.

About Trend Control Systems

For more than 30 years, Trend Control Systems www.trend-americas.com has offered reliable, easy-to-use products that support the life of any building and reduce life-cycle costs. With a worldwide distribution and support network in more than 50 countries, Trend Control Systems solutions easily integrate into other building systems, including lighting, fire and security/access. Trend Control Systems products include a complete line of fully programmable controllers containing both onboard web technologies and the standard BACnet protocol.
